<b>If an assessment objective has been omitted at subject cohort level, please briefly outline the reasons why:</b>							
➤ N/A							
<b>Outline the rationale for the choice of assessment evidence used, i.e., why the evidence above was used and how it supported the grading decision:</b>							
➤ The NEA is a current and up to date piece of evidence that forms significant evidence to support grading, as guided by the exam board.							
➤ The other in class assessments have been completed in class under a high level of control. Key sections of the specification were assessed using past exam papers provided by AQA. These specific sections were chosen so that students could demonstrate evidence across all the assessment objectives.							
➤ When necessary grades were determined using previous teacher assessments, of which electronic records were kept.
