If an assessment objective has been omitted at subject cohort level, please briefly outline the reasons why:

➤ N/A

Outline the rationale for the choice of assessment evidence used, i.e., why the evidence above was used and how it supported the grading decision:

- All evidence was collected under assessed/monitored circumstances therefore the integrity of the students' own work is assured.
- All evidence was collected during year 11 when students had received the most opportunities to learn and embed skills and knowledge required.
- This evidence supported the grading process by the use of published grade boundaries and exam board grade descriptors.
- If students have missed assessment post Easter, they have been caught up by the department. If students were absent in early assessments average grades for those individuals have been used.
